

# Victorian Curriculum Digital Technologies ONLINE PRESENTATION

- **Do you** need support to unpack the new mandated Victorian Curriculum Learning Area of **Digital Technologies**?
- Attend a **free 1 hour** Professional Learning Workshop presented by **Digital Technologies Consultant and current Educator Matthew Vines**

Designed for Curriculum Leaders, Teachers and Assistant Principals:

1. These two workshops will offer a comprehensive understanding of the new **Digital Technologies** curriculum and outline how it differs from the previous Curriculum.
2. Provide support in implementing Digital Technologies by unpacking the Strands and covering: the role of Coding, Algorithmic thinking, Systems and Computational thinking in the curriculum. Teachers and school leaders will take away from this workshop **practical strategies and resources** for their curriculum planning.
3. Workshop participants are invited to become part of a Community of Practice (CoP) building capacity in Digital Technologies by working together.
