# CITIZEN SCIENCE

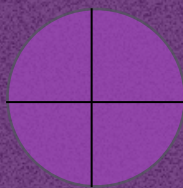

## PROJECT 4 BUBBLE DETECTIVES

**SNAP!**

Students have until Aug 14th to upload a snap of bubbles to the padlet on the L2VL website. Whats the biggest bubble you can make? Where can you see bubbles?

During science week (Aug 17th) we will be discussing bubbles and why we can see rainbow colours and other questions. So make sure you ask some questions on the blog or padlet when you upload your bubble pic.
